## Revolutionary New ROTARY LOCK™ MODEL 2100 open and close without touching the blade!

Truly unique and safe locking system that employs simple mechanical principles for dependable, trouble-free operation. No springs or complex gears to weaken, wear out or malfunction. The blade locks firmly in place in full open position and will not break away under rough use, yet closes with a simple rotary motion that revolves the blade and locks it into the case.

Each AUS 8-A stainless steel blade is tempered to a Rockwell hardness of 57-59. The nickel silver case is detailed with handsome rosewood inserts. Each part is mirror polished—inside and out—to insure continued smooth action. The Rotary Lock™ is a limited production, custom made knife that exemplifies the finest cutlery craftsmanship.

*Picture on reverse side actual size.*

2<sup>3</sup>/<sub>8</sub>" locking blade (6.0 cm). Closed 3<sup>1</sup>/<sub>8</sub>" long (8.0 cm).  
Wt.: 3 ozs. (85.0 g).

### TO OPEN:

- 1) Grasp brass wheel between thumb and index finger of either hand.
- 2) Grasp other end of handle between thumb and index finger of other hand.
- 3) Turn to open until lock clicks into place.

### TO CLOSE:

- 1) Point blade tip up and grasp brass wheel.
- 2) Make sure end of handle is against palm of same hand.
- 3) With other hand grasp bottom of handle between thumb and index finger and turn handle up toward blade until it clicks shut.

A little practice will make it easy and natural.

## THREE NEW LOCKING BLADE KNIVES WITH THAILAND WATER BUFFALO BONE HANDLES

Handsome heavy duty pocket knives with big and brawny blades. The streamlined design carries comfortably. A finger groove allows you to move your hand forward for precision cutting with complete control.

Each AUS 8-A stainless steel blade is tempered to a Rockwell hardness of 57-59. The blade is slightly hollow ground to a shaving sharp edge which is easily maintained. The stainless steel case has a solid brass finger guard and is detailed with uniquely beautiful and durable Thailand Water Buffalo Bone. Each metal part is mirror polished—inside and out—to prevent rust and corrosion. *Nothing else like it!*

*Pictures on reverse side slightly larger than actual size.*

**LITTLE STUD MODEL 2105** 2" locking blade (5 cm) with 1<sup>1</sup>/<sub>2</sub>" cutting edge (3.8 cm). Closed 2<sup>5</sup>/<sub>8</sub>" long (6.7 cm). Wt.: 1<sup>1</sup>/<sub>2</sub> ozs. (42.5 g).
