Letter to Our Customers

**Kershaw Knives
to be made
in the U.S.A.**

Pete Kershaw at Cascade Meadow Ranch in Oregon. Pete says, "You can be sure that every knife branded 'Kershaw' is the best that's made. You've got my name on it, and our Seal of Quality Guarantee."

1995 marks the beginning of our 21st year and also the gradual shift in manufacturing of Kershaw Knives to the United States from Japan.

Our factory is located in our own facilities in Wilsonville, Oregon (near Portland). We will be using the finest precision parts and state of the art techniques to produce knives of the superb quality our customers have expected and enjoyed from us for the past 20 years.

The goal is quite simple. To continue our commitment to quality, expand our innovative designs, and provide value to our customers.

And, as always – we want you to be proud to own what we are proud to make.

Pete Kershaw

kai USA Ltd. 25300 SW Parkway Avenue ■ Wilsonville, Oregon 97070 ■ (503) 682-1966 ■ 1-800-325-2891 ■ FAX: (503) 682-7168

Kershaw Seal Of Quality

How to Judge the Quality of a Knife

Every Kershaw knife is a proud example of the quality and skill with which it was made. It has to be. First and foremost, because we're committed to providing Kershaw knife owners with tools that exceed their expectations — tools they're proud to carry and use. And second, because our reputation is on the line with each knife we make.

Here's how to judge our quality for yourself:

Look for "Natural Balance"

Hold a Kershaw knife and you'll notice how well it's balanced. Feel its natural, secure grip and how its weight is right for its size and purpose.

Check for Tight Fit and Uniform Finish

Examine Kershaw's tight tolerances where the scales join the butt, bolster, and frame. Look for symmetry at the junction where blade and

bolster meet. Every Kershaw blade is perfectly centered in the frame. Parts are either symmetrical or mirror-image, depending on the demands of the particular design. And when it comes to uniform finish, Kershaw gives you unwavering quality.

Notice How the Blade "Travels"

If the knife is a folding knife, it should open and close smoothly. With a Kershaw knife, this "travel" is neither loose nor binding, with no gritty feel or wobble. The blade seats into position and releases easily, yet safely and smoothly.

Demand Blade Quality

Kershaw blades are manufactured of a high-carbon stainless steel from the AUS series (8A and 6A) which has a hardness range of Rockwell C57-59, and is an improvement over the famous 440-C alloy. Blades crafted from these premium-grade alloys are heat treated by an advanced sub-zero quench to enable Kershaw's incredible "shaving sharp" edge.

Look for the Kershaw Seal of Quality

For knives of exceptional quality, look for the Kershaw Seal of Quality Guarantee. When you see it, you can be sure that the knife you've purchased is the very finest that can be crafted — and is guaranteed to be free of factory defects for the life of its original owner. Every Kershaw knife means a lifetime of quality and performance.

The Kershaw Limited Lifetime Warranty

Any Kershaw product that is found to be defective in its original material, construction, or workmanship will be repaired or replaced with the same item or one of equal value at no charge for the lifetime of the original owner. (Normal wear, abuse, misuse, or neglect may make this non-transferable warranty void.)

Scrimshaw Originals

**White Tail
(Standing)**
Model 2120 MD

Canada Goose
Model 2120 MG

NEW Limited Edition Designs Created Exclusively for Kershaw. Scrimshaw is an original American folk art developed by whalers. Detailed, fine-lined designs are hand-etched into bone — with color designs demanding two individual etchings. Some of the finest examples of the art form are created exclusively for Kershaw by renowned scrimshander Walter Alexander. His designs are noted both for their life-like authenticity. The combination of Kershaw's premium folding blades and Walter Alexander's sought-after scrimshaw work offers you a valuable, collectable knife unequalled for its beauty and quality. ■ Each Scrimshaw Original is absolutely unique — hand-etched, dated, and signed by the artist. Then, each one is serial numbered and boxed in a handsome walnut case suitable for presentation. ■ The NEW limited edition collection of Kershaw's folding blade Scrimshaw Originals will be available only for a limited time. Please see the entire new collection on the following pages.

Walter Alexander, renowned scrimshander with studios in Seattle, Washington. His limited-edition designs for Kershaw are sought-after for their beauty and life-like authenticity.

 compartment.

D.W.O.
3001 (Black)
 Locking Clip Blade -
 2 3/8" (6cm);
 Closed - 3 1/4"
 (8.3cm)

The Hand-Print Handle Allows a Superior Grip. Made of Kershaw's durable co-polymer material, the "hand-print" handle of the popular D.W.O. pocket knife provides greater comfort and non-slip control, and its molded guard-thumb rest allows a more solid grip for bigger jobs. A standard blade fastener is easy to tighten as needed, and the covered blade lock keeps out debris. Permanently molded colors will not fade, chip or peel.

Delley Wade Officer fell victim to a hunting accident. To encourage hunter safety, the D.W.O. is dedicated to his memory.

Get a Powerhouse Grip! Made for real work, Kershaw's Folding Work Knives feature new ergonomic hand-print handles for more comfort and greater control. Get a cushioned powerhouse grip that makes tough tasks easy — the perfect complement to Kershaw's famous shaving sharp stainless steel blade! Also features Kershaw's patented covered locking mechanism that keeps debris out. Take hold of these knives and put 'em to the test. You'll know they're made for hard work — and built to stand up to it.

Closed - 2 1/2" (6.4cm)

Silver Spur

Rugged, Yet Featherlight.

If you're looking for a lightweight, but incredibly tough pocket knife, then Kershaw's attractive Silver Spur is just the ticket for you. The comfortably-grooved and flared handle is constructed of an aircraft alloy that is as light as it is handsome, yet it has a metal hardness rating even higher than that of most stainless steel. This alloy handle holds its satin lustre as well as a Kershaw blade holds its edge. And it's drilled to accept a lanyard or keyring.

Stainless Steel Bolsters the Appearance and Durability of these New Sheath Hunting Knives.

A rugged new handle design — developed from Kershaw's ergonomic "hand-print" concept — with a new stainless steel guard serves as the foundation for four of Kershaw's most popular hunting blade shapes. But even though the handle — contoured to assure a secure, comfortable grip and minimize fatigue — is most attractive in appearance, these new sheath knives are rugged and designed for field use. The handle, itself, is incredibly tough, and it's famous for its non-slip grip, regardless of conditions.

■ The blades, of course, are made of Kershaw's famous high-carbon stainless steel — a special alloy that sharpens well — honed to Kershaw's enviable "shaving sharp" edge. These blade shapes have been field-tested for material strength, performance and durability.

■ Talk about stout! These new Sheath Hunters are "built to handle the bunt," and you can put 'em to the task anytime, anywhere.

A New Generation of Value — and Comfort! Kershaw's Fixed Blade Hunters deliver performance and reliability with a durable double-injected handle design and field-tested shapes, all fabricated by hand. The rugged handle employs a ergonomic "hand-print" form with cushioning for greater comfort and control with a non-slip grip. A tough inner sleeve permanently bonds the handle to the tang of the premium-grade blade. Designed for discriminating sportsmen and outdoors enthusiasts, Fixed Blade Hunters offer great value with traditional Kershaw quality.

Magnificent Indian antelope adorns these meticulously- crafted sheath hunters.

The mirror-polished blade is shaped of premium-quality tool and die maker's stainless steel, triple-drawn to achieve an exact metallurgical balance of hardness and elasticity. The elegant drop handle is formed of magnificent deep-faced Indian Sambar staghorn, precision-fitted to the polished brass of its pommel and single-tine guard. The custom sheath is made of double-faced, double-stitched harness leather. ■ As you might expect, such uncompromising attention to detail demands that each American Hand-Crafted Knife is consecutively serial-numbered and signature-engraved.

Hand-Crafted
in the U.S.A.

Bowie Knives

Bowie Knife
Model 4071
Blade - 7 1/2"
(19cm); Overall -
12" (30.5cm).
Includes Harness
Leather Sheath

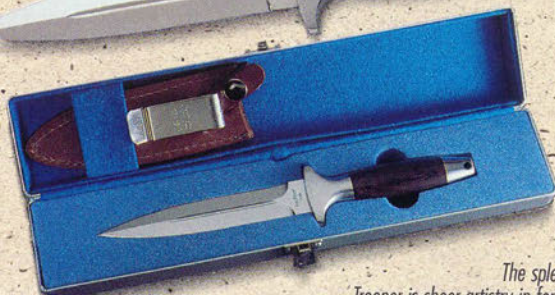

The Bowie Knife. The magnificent blades of Kershaw's presentation-grade Bowie Knives are wrought in premium-quality tool and die-maker's stainless steel alloy, triple-tempered to assure optimum hardness and edge-holding qualities, before they're double hollow-ground and polished to a mirror finish. ■ For the handle, multiple layers of natural hardwood veneers, pressure-laminated and sealed, are cut along a bias and then individually shaped and finished to fit over the massive full length tang of the blade. High-polished brass guards and butt caps complement the intricate woodgrain patterns. ■ Designed in three blade lengths, these remarkable Bowie Knives are manufactured by Kershaw in Texas, where the Bowie's star blazed across the frontier. Each one is consecutively serial-numbered and individually fitted to a custom harness leather sheath. Availability is strictly limited by the time required to hand-craft each knife.

Blade - 3 3/4"
(9.5cm) Overall -
7 3/4" (19.7cm).
Includes Clip-on
Leather Boot Sheath

Intended for field use, the Boot Buddy features Kershaw's asymmetrical Sabretooth serrated edge for ripping, as well as a full-length "shaving sharp" regular edge. Its harness leather Boot Sheath has a boot clip and a quick-release snap-lock closure to secure the knife.

Diver's Sheath (Included with both Sea Hunters and Amphibian Model 1006P)

A durable polycarbonate Diver's Sheath has a "Press 'n. Pull" double action quick-release mechanism which secures the knife regardless of your position in the water. Depth-compensating Diver's Leg Straps have easily-adjustable quick-release buckles. The Sea Hunter's Neon/Black colors make it easy to see against sand, rocks, and grass.

Fillet Knives

Clearwater Floating Fillet Knife

Model 1267
Textured Floating Handle, Blade - 7 1/4" (18.8cm); Overall - 12 3/4" (32.4cm). Includes Molded Belt Sheath

Fillet Knife

Model 1257
Blade - 7" (17.5cm); Overall - 12" (30.5cm). Includes Molded Belt Sheath

Optional Cleaning Spoon

Kershaw Clearwater Fillet Knives bring all the benefits of the new handle material and design originally developed for field knives — including improved comfort (and less fatigue) with a cushioned, non-slip grip and added control with the contoured "hand-print" shape. The properties that resist slipping can be especially important when cleaning fish. ■ Drop a Kershaw Clearwater Floating Fillet Knife in the water, and it floats on the surface. They're ideal for use on-water or off. The textured two-color handle is easy to see in all water conditions, and it allows a solid, firm grip. You'll never lose another knife to King Neptune!

Performance-Packed and Conveniently-Sized for Tackle Box or Knap Sack. This is the one you'll want to take with you on any outdoor adventure. Not only is it the optimum size for tackle box or knap sack, but it also delivers the value, quality craftsmanship, and high performance that sportsmen and outdoor enthusiasts demand. The high-carbon, stainless-steel blade is hand-honed to Kershaw's famous "shaving sharp" edge, satin finished, and mounted in an ergonomically-designed sure-grip handle. The contoured handle, molded from an advanced co-polymer, provides an extremely comfortable grip and non-slip control.

Kershaw Blade Traders

First Choice in Interchangeable Blade Knives. Quite simply, Kershaw's Blade Traders are the finest multiple blade knives made. Since Kershaw first introduced this innovative concept in 1980, Blade Traders have become the world's number one choice in interchangeable blade knives. ■ Like all Kershaw knives, each Blade Trader features premium quality, high carbon stainless steel blades, hand-honed to Kershaw's famous 'shaving sharp' edge. But the secret to Blade Trader's versatility is in the unique handle with its exclusive Quik-Lock mechanism. Quik-Lock allows you to safely trade and secure blades in seconds. Simply choose your blade, seat it on the special 'bowtie' blade mount, and close the handle. Even after years of constant use, Quik-Lock firmly holds each quality Kershaw blade in place. Blade Trader's ergonomically designed handle, made of advanced co-polymer compounds, provides unmatched comfort, control, and a fatigue-minimizing, non-slip grip. These hi-tech compounds also make the Blade Trader handle incredibly durable and dishwasher-safe.

Each Blade Trader includes a high-impact storage case with individual blade trays for secure, convenient storage and easy field use, and a rugged, double-stitched Cordura carrier.

Deluxe Blade Trader

Deluxe Blade Trader Model 1099DBT

Includes Handle
and Cordura
Storage Container
with Blade Case
and the following
blades:

Cook's Blade -
6" (15.2cm);
Carving Blade -
6" (15.2cm);
Bread Slicing Blade
6" (15.2cm);
Saw Blade -
6" (15.2cm);
Fish Fillet Blade -
6" (15.2cm);
Paring Utility Blade
4" (10.2cm).

A Generous Assortment of Blades for Every Cutting Task. This is the ideal cutlery solution at home, on the road, off the road, or on the water. The six premium quality, full-length blades are easily interchanged and held safely and securely with Kershaw's Quik-Lock mechanism. The comfortable grip provided by the contoured, 'hand-print' handle minimizes fatigue and offers improved knife control. You get the versatility of having all these blades: a cook's blade for dicing, slicing, carving, and heavy-cutting tasks; a carving blade; a bread slicing blade for bread, fruits, and vegetables; a saw blade for cutting through bone, campfire kindling — even tent stakes; a fish-fillet knife to speed through boning and filleting; and a paring/utility blade for smaller cutting tasks and general paring. The Deluxe Blade Trader allows you to handle any cutting, slicing, dicing, or chopping task with ease. And it makes a thoughtful and useful gift. High impact blade-storage case and Cordura carrier are included.

Cordura Sheaths
available in-red or black

Includes black
Cordura Sheath

At home or in the field, the NEW Cook's Blade Trader gives you all the slicing, dicing, cutting, carving, and paring power you need. It includes a large, well-balanced blade for everything from dicing to heavy-duty cutting, a carving blade, and a convenient paring blade for smaller cutting tasks. Each blade is manufactured of Kershaw's quality high carbon stainless steel. Anyone who spends time in the kitchen will also appreciate the ergonomically-designed, Quik-Lock handle that offers easy blade trading, comfort, and non-slip safety.

Hunter's Blade Trader

Hunter's Blade Trader

Model 1094HBT

Hunting Blade -
3 1/2" (9.4cm);
Saw Blade - 6"
(15.2cm);
Includes black
Cordura Sheath

The Hunter's Blade Trader provides the cutting power and versatility hunters need in field or forest. Crafted of premium-grade alloys and honed to a 'shaving sharp' edge, the Blade Trader's hunting blade offers superior performance. In addition, you get the hard chromium-plated saw blade which features a patented tooth design that 'planes' through wood or bone with a minimum of resistance, grabbing, or effort. Like a chainsaw, it cuts on the pull stroke for an improved cut with less fatigue. And because it's from Kershaw, it stays sharp longer.

Sportsman's Blade Trader

For hunting, fishing, camping, and more, outdoor enthusiasts will find the right combination of blades in Kershaw's Sportsman's Blade Trader. The hunting blade offers a 'shaving sharp' edge that performs well in a wide variety of tasks. The fillet blade makes quick work of filleting your catch, while the saw blade 'planes' through wood or bone with a minimum of resistance and effort. To stay sharp longer, its patented 'chainsaw' style tooth design is hard chromium-plated. And Blade Trader's exclusive handle provides a non-slip grip in all outdoor conditions.

Sportsman's Blade Trader
Model 1095SBT
 Hunting Blade - 3 1/2" (9.4cm);

Fisherman's Blade Trader

Fisherman's Blade Trader
Model 1096FBT
 Fillet Knife - 5" (12.7cm); Large Fillet Knife - 6" (15.2cm); Utility Blade - 4" (10.2cm). Includes black Cordura Sheath

The Fisherman's Blade Trader provides the tools anglers demand in all marine situations. It's the perfect companion for your next fishing trip. The Fisherman's Blade Trader offers you two different fillet knives - a 5-inch and a 6-inch blade - and a versatile serrated utility blade which powers through tough jobs like removing heads, and even includes a fish scaler. All blades are crafted of high carbon stainless steel and polished to a handsome satin finish. For a sure grip, even in wet conditions, the blades fit securely into the Blade Trader handle.

Fisherman's Blade Trader is also available in Blue Sheath.
Model 1096FBTB

Personalized, Dress & Accessories

LASER ENGRAVING Computer-controlled, produces richly-detailed, accurate deep-cut scenes of intricate artwork and logos in wood.

Kitchen Cutlery

Chef's Knife
Model 9945
Blade - 8" (20cm)

Attractive Styling, Great Feel! A complement to every kitchen, the contemporary black-on-white styling of Kershaw's cutlery is not only gorgeous, but also practical. The hand-print handle — with the "feel of velvet!" — is permanently bonded to an inner sleeve and the blade. Together, they form a perfectly-balanced knife that is indestructible under normal conditions, offers a non-slip grip even when wet, and guaranteed "dishwasher safe." The blades are especially made to hold their "shaving sharp" edges longer and to sharpen quickly. Available individually; as a cutlery set in an Eastern Maple Kitchen Block; and in gift sets.

Steak Knives

**Steak
Knife Gift
Pack**
Model 9921-6
Blade - 4 3/8"
(12cm)

A Beautiful, Practical Addition to Your Table

These handsome NEW steak knife gift paks, with their Kershaw "shaving sharp" blades, slice through any meat you're serving like butter. But that's not the only reason they're a pleasure to cut with. The contemporary black handle is ergonomically-designed to fit the hand perfectly. It's molded of an advanced co-polymer compound that offers the dual benefits of durability and a comfortable, velvet-soft, non-slip grip. The handle is permanently bonded to an inner sleeve and to the blade. This makes for a beautifully balanced knife that's absolutely durable and completely dishwasher-safe. Your set of six steak knives comes in a reusable tray for easy storage.

Kitchen Shears
Model 1120
Overall Length - 9"
(23cm)

Incomparable Versatility. Shear Genius!

Kershaw's Kitchen Shears may well be the single most versatile cutlery implement ever designed. Features include a notch that powerfully grips and cuts through bones and a serrated blade that maintains its hold on even the slipperiest of fish. But, before they were finished, Kershaw's designers had also incorporated a nutcracker, jar opener, screwdriver, lid lifter, and bottle opener, as well as incredibly sharp blades that quickly disconnect for ease of cleaning. Conceived for use in the field, these remarkable all-purpose shears have been embraced as a valuable innovation by chefs and everyday cooks in kitchens and campsites around the world.

Anatomy of a Kershaw Knife

The Quality and Care of Your Kershaw Knife. Kershaw knives are manufactured with pride, uncommon attention to detail, and the highest standards of quality. From the tip of its famous "shaving sharp" high carbon stainless steel blade to the end of its pommel, each Kershaw knife is built to give you a lifetime of performance and beauty. Proper care will maintain this high quality. The blade channel should be kept free of debris. Occasionally, the hinge of the blade should be oiled. To prevent tarnishing, the blade should be kept lightly oiled. Finally, sharpen your knife with a Kershaw sharpener as required.
