KERSHAW MULTI-TOOL

*Perfect for clamping
hoses, vacuum or fuel
lines, leaving both
hands free*

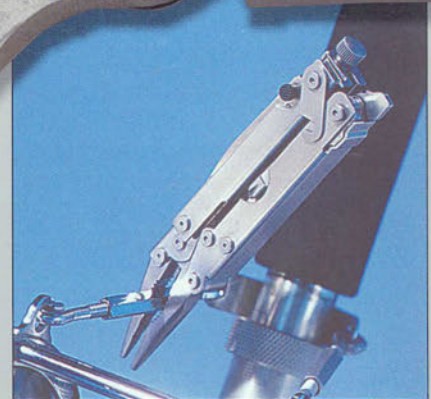

A unique accomplishment in the multi-tool market... pliers that lock on.

When developing our new Kershaw Multi-Tool, we had one specific goal in mind; to offer customers a multi-tool that would be absolutely unique in its functions and appearance. It had to have style. And it had to perform. The result is the tool you see here. It's a plier that grips like a vise and locks-on. When you need both hands free, you can just lock onto the job. We also borrowed an idea from our extremely popular Liner Action series of knives by incorporating a one-handed opening and closing feature for the blade. With features like these, you could almost say the Kershaw Multi-Tool works all by itself. Well...not quite. You'll still have to push the hacksaw, turn the screwdrivers, open the cans and bottles, and file your fish hooks by yourself. But you'll sure appreciate having all these tools in one convenient package—the new Kershaw Multi-Tool.

Pete Kershaw

*Great when you need
both hands free*

One-handed opening in a titanium-handled knife

The new Ti ATS34, Kershaw Talon and Wild-Wild Turkey, are all exceptionally handsome, titanium-handled knives with an exceptionally tough ATS34 stainless steel blade rated between 59 and 61 on the Rockwell hardness scale. Plus, the blades are laser cut, then hand-honed to our famous 'shaving sharp' edge. The lightweight, corrosion resistant Ti-handle offers high-tech styling with a computer machined and bead blasted finish. These knives also feature a unique moveable thumb stud for left or right-handed opening and closing. Teflon-coated bushings ensure that the blade travels smoothly in and out of the handle. Features like a safety locking system and an ability to disassemble the knives for easy maintenance earn these premium quality, Ti-handled knives their limited lifetime warranty. The Ti ATS34, Kershaw Talon and Wild-Wild Turkey include removable pocket clips for convenient carrying.

G-10 ATS34 Knives

The same high-tech styling and quality of our ATS34 knives is also available with a unique G-10 handle. G-10 is one of the finest

materials available for manufacturing knife scales. Here's why; this medium weave, fabric-based, high-pressure glass epoxy laminate offers a 55,000 psi tensile strength and 65,000 psi compressive strength. It's 40% lighter than aluminum, and resistant to most chemicals. When properly finished, it provides excellent tactile and grip characteristics and good thermal insulating qualities.

LINER ACTION

*A nice morning's duck
shoot, England*

**Just one hand opens
and closes this
versatile, lightweight,
yet rugged knife**

You can open and close this handsome pocket companion with a simple motion of your thumb. The blade travels smoothly out of the frame then locks-back securely into position, ready for use. The comfortable handle is crafted from cast aircraft aluminum that's incredibly durable and amazingly lightweight. Its good looks and practicality are enhanced by the special non-slip, co-polymer inset in the handle.

NEW! Our newest Liner Action knives (Models 2420BST and 2415BST) feature a Teflon-coated handle for a durable, handsome black finish. To compliment the black handle, the blade is bead-blasted to a matte finish.

A handy removable pocket clip comes with Models 2420, 2420ST, 2415, 2415ST, 2420BST, and 2415BST.

CASCADE MEADOW

*Cascade Meadow Ranch
Sisters, Oregon*

The perfect blend of form and function

The first thing you notice is the graceful form. Cascade Meadow knives feature a slim, satin-finished, stainless steel profile richly inlaid with polished sandalwood. But when you put these knives to the test you'll appreciate their graceful function as well. The premium quality blade travels smoothly out of the

handle and its hand-honed, 'shaving sharp' edge is ready to take on your task. Cascade Meadow knives come in four styles, suited for pocket or purse.

Steel - AUS6A
Weight - 1.7 oz.

To encourage hunter safety, Kershaw's D.W.O. knives are dedicated to the memory of Delley Wade Officer who fell victim to a tragic hunting accident. A portion of the proceeds from the sale of each knife goes to Delley's family.

Get a superior grip

Get a grip on a Kershaw D.W.O. Classic and you'll have a knife that provides greater comfort and more non-slip control. The key is the durable co-polymer material from which Kershaw manufactures the handle. The standard blade fastener can be easily tightened as needed. D.W.O.s come with classic black, blue, or easy-to-spot red or orange handles. The smaller D.W.O. II is a convenient size for personal use or in a glove compartment.

OFFICER RANCH

Gene and Wade
Officer, two tough
"Field Testers"
Grant County, Oregon

Knives that always win an admiring glance—and offer ranch-tough performance

This extra-handsome knife is
equally at home on the work site or
on the town. The satin-finished
stainless steel bolster curves
gracefully to fit the hand, while the
inlaid, aged and polished
sandalwood adds style and class.
As good as it looks, it performs
even better. Kershaw
flawlessly crafts

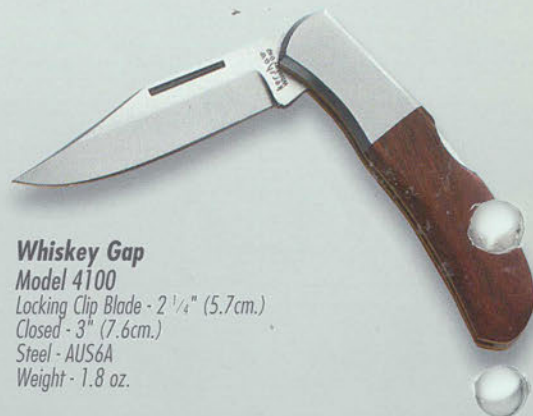

each Officer Ranch knife—from the
pocket-sized Lil' Cody to the Big
Joe, a working knife that comes
complete with its own harness
leather sheath. Each one features
classic, Kershaw premium quality
blades, hand-honed sharp and
satin-finished to compliment the
bolster. They make ideal gifts.

Classic styling in a lock-back folder with a solid, comfortable grip

This is the one knife working ranch hands won't be without-and you won't want to be without it either. It provides everything knife owners demand in a working knife-timeless styling, rugged dependability, and a comfortable grip for solid control. This perfectly balanced knife features a sintered metal alloy frame inset with precision cross-grooved ABS scales to ensure your secure grip. For carrying convenience, it's drilled to accept a lanyard. Of course, the premium stainless steel blade is manufactured to meet Kershaw's uncompromising quality standards-and to meet the demands you put on your working knife. Larger models include a high quality Cordura® Sheath.

Black Horse II Made-in-the-USA quality

We're proud to tell you that we're making an increasing number of our popular work knives in the USA. Black Horse II Model 1060A and the serrated 1060AST feature blades of top quality, high-carbon 440A American steel, fine blanked and honed to a precision edge. These folding work knives are in high demand with sportsmen, outdoor enthusiasts, and other knife users who require a rugged, hard-working knife. The ergonomics handle, made of an advanced co-polymer, is finger-contoured to provide a sure grip in all outdoor conditions. For superior performance and value in a folding work knife, there's no better choice than one of our folding work knives—like these American-made models.

LEVER ACTION

Kershaw Knives are proven ranch tough.

Get 'Lever Action' with one easy motion of your thumb

The high-carbon stainless steel blade with its Kershaw-sharp edge stays neatly concealed within the lightweight Zytel™ handle until a simple downward stroke of your thumb partially levers it open. When fully opened, the blade locks securely into position, ready for your toughest task. Kershaw's Lever Action Knives offer a handsome look, a light, comfortable, injection-molded handle, and unmatched performance. Serrated and non-serrated blades are available. All models include a convenient clip so the knife is available quickly—with no need to dig through your pockets.

Great value—traditional Kershaw quality

Designed for discriminating sportsmen and outdoor enthusiasts, Kershaw's line of Hunters delivers the blade shapes you want and the field-tested reliability you demand.

These hunters are built for action—from the tip of their premium-grade blades to the durable, double-injected handle.

The tough inner sleeve is permanently bonded to the blade tang for dependability, while the outer sleeve features Kershaw's unique ergonomics-designed 'hand-print' handle for firm grip, control, and comfort. Each knife includes a handsome harness leather sheath.

CLASSIC HUNTERS

Tyrolean Alps,
Austria

Hunting knives of timeless beauty and exceptional quality

There are reasons these knives have stood the test of time. Each blade is perfectly formed for its function—from our flagship Folding Field knife to our 'shaving sharp' Big Skinner. Their classic styling is ruggedly handsome and features mirror-finished blades with gleaming brass pommels, guards, and fittings. The craftsmanship with which they're manufactured is equally exacting. From the hand-polished blades to the precisely balanced phenolic handle fitted to a full length tang, Kershaw quality is crafted into each of these traditionally beautiful knives. Each of these Classic Hunters comes with its own harness leather sheath or scabbard.

Built to handle the hunt

Kershaw Sheath Hunters combine our most popular hunting blade shapes with the high-tech look of satin-finished stainless steel-plus the super solid grip of our 'hand-print' handle. Choose from our classic drop point blade, Bowie-style blade, modified skinning blade, or skinning blade with gut hook. Each blade is solidly seated in our ergonomics-designed, co-polymer handle that provides incredible durability and a non-slip grip-even in wet conditions. Each fatigue-minimizing handle is accented with a stainless steel guard and fittings, polished to a satin finish. Field-proven for strength, performance, and durability, you'll be proud to own these uncommonly handsome knives. Each knife comes with a durable harness leather sheath.

BLADE TRADERS

Red Deer Stag
Scotland

The most versatile knife concept ever devised!

Quite simply, Kershaw Blade Traders are the finest multiple blade knives ever made. The Blade Trader system lets you tackle every cutting, slicing, sawing, or chopping task with ease. Our exclusive Quick-Lock mechanism is key to Blade Traders top performance. It allows you to safely trade blades in just seconds. Choose your blade, seat it on the special 'bowie' blade mount, and close the handle. The ergonomics-designed handle provides unmatched comfort, control, and a fatigue-minimizing, non-slip grip, even in wet conditions. Kershaw offers a Blade Trader system for every need. Safety, security, and the right tool for the job are yours with the Blade Trader system. Every Blade Trader includes a carrier for convenient storage and easy use.

Deschutes River, Oregon

Engineered to make your next fishing trip even more satisfying

Kershaw offers you a line of fishing tools that can handle every marine adventure. The Trout & Bird Knife, with its high carbon blade and sure-grip handle, is the optimum size for a tackle box or knapsack. It delivers all the value, quality, craftsmanship, and high performance that sportsmen and outdoor enthusiasts demand. Kershaw Fillet Knives offer you the same top quality in a special slip-resistant handle—perfect for when you're cleaning fish. Kershaw Taskmaster Fishing Shears are the most versatile you've ever used. Skeeter Fly-Tying scissors feature wide finger loops for tight control, while their super-sharp blades cut with ease. Complete your tackle box gear with a pair of Kershaw titanium nitride-coated Super Line Cutters, designed specifically for cutting today's high-tech fishing lines.

EXTREME SPORT

Kershaw Knives are white water tough.

Even under extreme conditions, your grip won't slip

Kershaw's Extreme Sport Knives are designed to give you maximum grip control, performance, and convenience with minimum weight. These knives are built to take your active lifestyle—from undersea adventures to mountain tops.

Sea Hunters

Kershaw Sea Hunters feature a drop point blade with a full-length 'shaving sharp' edge. Plus there's a serrated section for ripping, and a sharpened line cutter. An optional, interchangeable, heavy duty blunt tip blade is also available. Blade exchange is easy with the threaded torsion-lock mount and a screwdriver. Sea Hunter's neon and black design is easy to spot even against rocks, sand, or grass. All Sea Hunters also include the Diver's Sheath with the 'press-n-pull' quick release mechanism that secures the knife regardless of your position in the water. Depth-compensating leg straps are easily adjustable and include quick-release buckles.

Sea Hunter/Blunt-Tip Model 1008BL-P

Double-Edged Serrated Blade with Cord Hook - 3 1/2" (9cm.)
Overall - 7 1/2" (19.3cm.)
Steel - 420J2
Weight - 6.7 oz.
Includes Diver's Sheath with Leg Straps

Sea Hunter/Multi Purpose Model 1008

Double-Edged Serrated Blade with Cord Hook - 3 3/4" (9.5cm.)
Overall - 7 3/4" (19.7cm.)
Steel - 420J2
Weight - 6.7 oz.
Includes Diver's Sheath with Leg Straps

Diver's Sheath (Included with both Sea Hunters and Amphibian Model 1006P)

A durable polycarbonate Diver's Sheath has a "Press-n-Pull" double action, quick-release mechanism which secures the knife regardless of your position in the water. Depth-compensating Diver's Leg Straps have easily adjustable quick-release buckles. The Sea Hunter's Neon/Black colors make it easy to see against sand, rocks and grass.

Boot Buddy

Model 1009
Blade - 3 3/4" (9.5cm.)
Overall - 7 3/4" (19.7cm.)
Steel - 420J2
Weight - 5.1 oz.
Includes Clip-on Leather Sheath

Boot Buddy

The Boot Buddy could be your best friend in an outdoor situation. Its asymmetrical serrated edge provides potent ripping power on one side of the blade while the other side features our famous 'shaving sharp' edge. Includes a clip-on leather boot sheath with a quick-release, snap-lock closure to secure the knife.

Amphibian

Model 1006L
Double-Edged Serrated Blade - 4" (10.2cm.)
Overall - 7 3/4" (19.7cm.)
Steel - 420J2
Weight - 5.1 oz.
Includes Leather Boot Sheath
Model 1006P
Double-Edged Serrated Blade - 4" (10.2cm.)
Overall - 7 3/4" (19.7cm.)
Steel - 420J2
Weight - 6.5 oz.
Includes Diver's Sheath with Leg Straps

Amphibian

Built for super lightweight performance, the Amphibian features a double-edged blade, serrated along one edge for cutting rope. The open-tang handle design reduces weight, while the flared guard ensures complete control. Includes a Diver's Sheath (as shown) or a leather boot sheath.

SHEARS & SCISSORS

Taskmaster Shears
Model 1120S
Overall Length - 9" (23cm.)
Includes Harness Leather Sheath

Fly fishing for

Deschutes River, Oregon

Kitchen & Utility Shears

While these incredibly versatile shears were specifically designed for use in the field, many people won't be without them around the house. From kitchen to shop, they offer features you won't find anywhere else. Their design includes a special notch that powerfully grips and cuts through bones and a serrated blade that maintains its hold on even the slipperiest surface. Our master designers also included a nutcracker, jar opener, screwdriver, lid lifter, and bottle opener. The super sharp blades quickly disconnect for easy cleaning, too.

Sewing Shears & Scissors

Kershaw sewing tools feature blades manufactured from the same premium-grade, tempered stainless steel we use to craft our knives. Then they're hand-ground and honed beautifully sharp. You'll cut through the thickest fabric with never a drag or catch. And because we know how much you use your tools, we've contoured the thumb and finger loops on our shears and scissors to let you work for hours with no hand fatigue.

4" Needle craft Scissors
Model 6005K
Overall - 4" (10.1cm.)

Here are the tools to make quick work of most any kitchen job

Whether it's barbecue in the backyard, preparing a gourmet meal, or a quick sandwich in the kitchen, Kershaw has the kitchen tools you'll appreciate. Not only do they look good with their handsome black and white styling, but because they're from Kershaw, they're as practical as they are beautiful. The high-carbon stainless steel blades are designed to hold their edge longer and sharpen quickly. These quality blades are permanently bonded to the comfortable, non-slip handle—ergonomically-designed to reduce hand fatigue and give you safe and secure control even when wet. Under normal conditions, these quality knives are practically indestructible and guaranteed dishwasher safe, too. With Kershaw knives, you have all the slicing, dicing, cutting, carving, and paring power you need!

Chef's Set

Closed - $2\frac{1}{8}$ " (5.4cm.)
Steel - AUS6A
Weight - 1.6 oz.

ET KNIVES

Three beautiful ways to put your name on our quality products

The Kershaw name ensures you uncommon craftsmanship for premiums and presentation gifts as well as corporate awards and personal gifts. Embellish our Money Clip Knife or Keychain Knife—or other fine Kershaw knives—to make a memorable impression. For quality you'll be proud to award, there's no better choice than Kershaw. We also offer a wide range of other premium and presentation products.

Laser Engraving

Our laser engraving process is computer controlled and produces richly and accurately detailed scenes deeply cut into quality hardwoods. This type of engraving is ideal for intricate artwork and logos and produces a dramatic effect.

Classic Metal Engraving

Metal engraving accurately reproduces logos and symbols, as well as initials, names, and text in a variety of typefaces for a subtle—and classy—touch.

Electro-Etching

Electro-etching is a effective method for reproducing your logos or initials on stainless steel blades or handles. Electro-etching stands out more than metal engraving for a stronger message.

Ultra-Tek Blade Sharpener

Model 2535

Overall - 8 1/2" (20.3cm.)

Sheath - 5 1/2" (12.7cm.)

Edge-Tek Blade Sharpener

Model 2525

Overall - 8 1/2" (20.3cm.)

Sheath - 5 1/2" (12.7cm.)

Includes Cordura® Sheath

Ultra-Tek Blade Sharpener

Ultra-Tek is impregnated with 600 grit diamond coating bonded with nickel plating to a light weight tube. The perfect sharpener for the repair of extremely dull edges.

Edge-Tek™ Blade Sharpener

Super heated metallic carbide is pulse arc fused to a bi-radial tapered rod to create this high-tech blade sharpener. It achieves an incredible hardness of C-150 on the Rockwell scale. Sharpen all the blades you want—even serrated blades, saws, and other cutting tools.

COLLECTOR KNIVES

Kershaw's Scrimshaw Originals are created by scrimshaw artist Walter Alexander who has devoted more than 20 years of his life to this delicate and exquisitely beautiful American folk art. Walter lives with his wife and two children in central Oregon.

Scrimshaw Originals—one-of-a-kind works of art

Scrimshaw is an original American folk art, first developed by 19th century whalers. Detailed, fine-lined designs are hand-etched into bone. Some of the finest examples of the art form are created exclusively for Kershaw by renowned scrimshander, Walter Alexander. He applies a variety of etching techniques that enable him to achieve designs noted both for their beauty and their life-like authenticity. The combination of Kershaw's premium folding blades and Walter Alexander's sought-after scrimshaw work offers you a valuable, collectable knife unequalled for its beauty and quality. Each knife is unique, hand-etched, dated and signed by the artist. Each serial numbered knife is boxed in a handsome walnut case suitable for presentation or display.

Commemorative North American Wildlife Bowie Knives

Grizzly Bear Bowie Knife

Model 4063
Blade - 9" (22cm.)
Overall - 13 3/4" (35cm.)
Steel - 440C
Includes Hardwood Presentation Case with Plexiglass top

These limited edition commemorative Bowie knives are hand-crafted to capture the spirit of two of the most admired wildlife species in America—the Grizzly Bear and the North American Bison. Each piece is cast in bronze to capture each detail of the artist's work. The premium-grade stainless steel blade is perfectly-proportioned and hollow-ground to a mirror finish by Kershaw's master cutler's and enhanced by an etched wildlife scene. The stamina wood drop handle is finger-contoured and accented by a gleaming brass pommel. Each North American Wildlife Bowie comes in a handsome walnut and acrylic presentation and viewing case.

North American Bison Bowie Knife

Model 4064
Blade - 9" (22cm.)
Overall - 13 3/4" (35cm.)
Steel - 440C
Includes Hardwood Presentation Case with Plexiglass top
Proposed for 1998

The Trooper—collectable symmetry

The Trooper is one beautiful piece of stainless steel—accented by a close-grained, ebony, hardwood handle. It makes a magnificent presentation piece or a handsome addition to any knife collection. The mirror-polished stainless steel blade, pommel, and guard gleam against the dark richness of the ebony. Each Trooper is serial-numbered and includes a presentation case with engraving plate as well as a leather sheath with boot clip.

Trooper Model 1007

Double-Edge Blade - 5 1/4" (24.4cm.)
Includes Harness Leather Sheath and Presentation Case with Engraving plate

CLASSIC ACCESSORIES

From Pete Kershaw's den

Kershaw Knives are sold and used world wide. As a result of field testing, I have enjoyed using our products as well as the classic accessories shown here. Friends ask, where they can buy these unique and beautifully-made goods. So now we're proud to offer you a selection of my favorites that you too can enjoy.

Pete Kershaw

Scottish Wool Sweaters

100% Scottish wool sweaters, trimmed with suede elbow and shoulder patches. Available in green and navy. Sizes: M, L, XL.

English Game Bags

The green bag is made of thorn proof, waterproof, waxed cotton. The tan bag is made of tightly woven khaki. Both bags are trimmed with harness leather and have removable vinyl liners. They're totally waterproof and washable. Works great as a lightweight briefcase or travel bag.

British Silver-plated Bottle Stops

Exquisite casting of a goose, stag head, and stag body.

Stainless Steel & Brass Flasks

These elegant flasks are stainless steel and brass with a fine English leather cover. Brass flask holds 6 ounces. The stainless steel flask holds 8 ounces.

Adjustable Wool Caps

Be a 'real sport' in your 100% wool Kershaw Knives cap with suede visor.

Sommelier's Tool

A truly distinctive, high quality wine opener.

Kershaw's Commitment to You

Kershaw is committed to providing you with tools that exceed your expectations—tools you're proud to carry and use.

That commitment starts with the blade itself. Kershaw blades are manufactured of premium high-carbon content stainless steel and heat-treated for demonstrably superior durability. Each one is perfectly ground and polished by our craftsmen before being hand-honed to our famous Kershaw 'shaving sharp' edge.

Our extremely tight manufacturing tolerances ensure your Kershaw knife will give you a lifetime of performance. The perfect balance of every Kershaw knife—and the smooth-as-butter 'travel' of our folding knives—makes every Kershaw knife a pleasure to use. Their uniform finish and exceptional design make them a pleasure to own.

Kershaw's Seal of Quality

Guarantee is proof of our unwavering quality. When you see the Kershaw Seal of Quality Guarantee, you'll know the knife you've purchased is the very finest that can

be crafted—and guaranteed to be free of factory defects for the life of its original owner. Any Kershaw product that is found to be defective in its original material, construction, or workmanship will be

repaired or replaced with the same item or one of equal value at no charge for the lifetime of the original owner. (Normal wear, abuse, misuse, or neglect may make this non-transferable warranty void.)
